

Nene Valley Aeromodellers - ELECTRIC FUN FLY - Rules (Fixed Wing)

The competition will be comprised of 4 rounds:

Round 1: "The Ring Drop"

Competitors will attach the supplied peg to their model, with a ring placed over the peg. The ring should be dropped on 'the spot' whilst the model is in flight. The winner will be the ring nearest to 'the spot'. The round must be completed within one minute from the wheels leaving the ground or the launcher's hand. Models that have not dropped the ring after one minute will be eliminated from the round.

Round 2: "Nearest to the Spot - Landing"

The winner will be the competitor who lands nearest 'the spot' where the wheels/fus or any part of the model first touch the ground; only one attempt per competitor. The round must be completed within one minute from the wheels leaving the ground or the launcher's hand. Models that are still in the air after one minute will be eliminated from the round.

Round 3: "Climb and Glide"

The competitor will climb for 10sec from the wheels leaving the ground or leaving a launcher's hand: then throttle must be cut promptly and completely. The winner will be the competitor that has the longest flight. The model should land within the fenced area. Models that land outside the fenced area, will have 1 minute removed from their flight time. If the throttle is used after initial 10sec of flight, the model will be eliminated from the round.

Round 4: "The Limbo"

The winner will be the competitor that makes the greatest number of 'in-flight' passes beneath the tape within one minute. The minute will start from when the wheels leave the ground or the launcher's hand. Taking off beneath the tape is allowable but will not count as a pass through.

General Rules of the Competition:

- 1) In the event of a 1st place tie for a round, the first and second places will be decided by a "Fly-off"
- 2) The judge's decision is final in all cases
- 3) There will be a prize awarded to the winner of each round
- 4) The same model must be used for every round.
- 5) I.C. powered models are not allowed to enter - Electric powered only
